

Towards Zero Carbon Webinar and Virtual Roadshow

Blackstone Minerals Limited ("Blackstone" or the "Company") is pleased to announce it will be hosting a webinar on Monday 28th February - "Towards Zero Carbon."

The webinar will feature the Company's progress towards delivering zero mining carbon operations and will include an update on the Ta Khoa Project Pre-feasibility Study (PFS) technical and economic outcomes.

Presentations will be made by the Blackstone team and industry experts who will be speaking about the growing support and interest in decarbonising the mining industry.

Details for the webinar are provided below with the following presenters and topics:
